Experience

Web Content Coordinator
15th Judicial Circuit of FL

West Palm Beach FL
1/17 – current

I planned, designed and built the current public website improving the organization of information the aesthetics of the theme, and easy of use for those editing content. I created a training site used to educate the staff as well as an online court staff directory. I have planned the user interface for two court applications and a publicly used kiosk; creating wireframes, prototypes and designs.

UX/UI/Web Development
E.I.C.C., Inc.

West Palm Beach FL
5/14 – 5/17

I worked on customer and internal company projects; including planning, designing and building custom websites. I created video and audio products sold by the company. I managed all social media and email marketing for company projects.

Front End Developer
Oreck LLC

Nashville TN
09/11 – 05/14

I worked within the digital marketing team to help spread the word about their products and facilitate online ordering. My work consisted of updating and maintaining all the pages on the web site, construction of email campaigns; and creation of animated web ads. I worked with the developers and designers to create the new e-commerce site. I also themed a variety of other third-party sites used by the company.

**Web Developer &
Project Manager**
Horton Group

Nashville TN
03/10 – 09/11

I designed and developed Drupal sites for a variety of clients. I was responsible for designing interfaces and theming sites. I also managed dozens of development projects, aided with estimating, budgeting planning and managing the team. I reorganized the development process for the company.
